Re: HRSA DoNation Campaign Collaboration Projects

Dear Mr. Holloman,

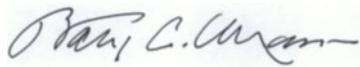

The Association of Organ Procurement Organizations ([AOPO](#)) submits our support as a collaborating organization for the HRSA DoNation Campaign to elevate the benefits and importance of donation and increase the number of registered organ, eye, and tissue donors across all workplaces in the U.S.

AOPO represents 48 organ procurement organizations (OPOs), nonprofit, federally designated entities tasked with facilitating the organ donation process. Part of the OPO's role is to provide public education and outreach to communities within their service area to increase awareness and help people make informed decisions about donation.

The Association stands ready to participate as a co-sponsor to advise the initiative from the OPOs perspective and share updates regarding the DoNation Campaign with our membership. In an effort to reach [50,000 annual organ transplants in 2026](#), AOPO is focused on expanding collaboration and increasing outreach to diverse and underserved communities. The DoNation Campaign aligns with our goals to save more lives each year through organ donation and transplantation.

We appreciate HRSA for providing an additional avenue for us to meet our mission and look forward to the opportunity for partnership on the 2023 DoNation Campaign.

Sincerely,

Barry Massa
AOPO President
Executive Director
LifeCenter Organ Donor Network
